Subject Index of Volume 71

Aberchrome 540
comments about the use of Aberchrome™ 540 in chemical actinometry, 51
Absorption
method for the determination of absorption coefficients, reaction rate constants and thermodynamic data in the system A $\underset{\Delta}{\overset{h\nu}{\rightleftharpoons}}$ B, 205
photophysical properties of five laser dyes (C120, C1, C102, C1F and C153) in homogeneous, surfactant and membrane media, 269
unusual absorption and fluorescence properties of 1,6-diphenyl-1,3,5-hexatriene in poly(vinyl alcohol) film, 161
Acrylamide
fluorescence quenching by acrylamide in micellar solutions, 175
2-Acrylated anthraquinones
excited state properties of 2-acrylated anthraquinones, 109
Acyclic α,β-unsaturated thiones
light-induced interconversion of 2,2,4-trialkyl-2*H*-thietes and acyclic α,β-unsaturated thiones, 103
Acylazides
photochemistry of acylazides
aroylazide decomposition by photoinduced electron transfer, 119
Amphiphilic zinc phthalocyanine
novel Langmuir–Blodgett films, consisting of amphiphilic zinc phthalocyanine and hydrophobic porphyrin, 275
Annealing
photomineralisation of 4-chlorophenol sensitised by titanium dioxide: a study of the effect of annealing the photocatalyst at different temperatures, 285
Annular photoreactor
jacketed annular membrane photocatalytic reactor for wastewater treatment: degradation of formic acid and atrazine, 291
2-Anthracene sulphonate
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
Anthryl substituent
intramolecular triplet–triplet energy transfer from xanthene dyes to an anthryl substituent, 45
Aroylazide decomposition
photochemistry of acylazides
aroylazide decomposition by photoinduced electron transfer, 119

BCPPZ
twisted internal charge transfer (TICT) effect in bis(4-cyanophenyl)piperazine, a pseudo-dimer of dimethylaminobenzonitrile: a comparative study, 13
Bichromophoric anthracene derivatives
conformational effects on photophysical properties of selected bichromophoric anthracene derivatives, 245
Butyltin chlorides
UV photolytic degradation of butyltin chlorides in water, 97

Carbazole
photocyclization of *o*-nitrodiarylamines, 133
α-Carboline
photocyclization of *o*-nitrodiarylamines, 133
Carbon tetrachloride
static and dynamic model for 1-naphthol fluorescence quenching by carbon tetrachloride in dioxane–cetonitrile mixtures, 115
Cetylpyridinium chloride
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
Cetyltrimethylammonium bromide
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
Chemical actinometry
comments about the use of Aberchrome™ 540 in chemical actinometry, 51
4-Chlorophenol
photomineralization of 4-chlorophenol sensitized by titanium dioxide: a study of the initial kinetics of carbon dioxide photogeneration, 75
photomineralisation of 4-chlorophenol sensitised by titanium dioxide: a study of the effect of annealing the photocatalyst at different temperatures, 285
Conformational effects
conformational effects on photophysical properties of selected bichromophoric anthracene derivatives, 245
Cyclodextrin cavities
vacuum UV photochemistry in cyclodextrin cavities. Solid state *Z–E* photoisomerization of a cyclooctene–β-cyclodextrin inclusion complex, 61

Decomposition
photoactivation of silver loaded on titanium(IV) oxide for room-temperature decomposition of ozone, 195
Deuterated alkylhalides
pressure effects on IR multiphoton dissociation of CDF_3, 9
Dibenzobarrelene
novel photorearrangement of a bridgehead-disubstituted dibenzobarrelene. Steady state and laser flash photolysis studies of a 9-hydroxymethyl-10-methyl-dibenzobarrelene, 27
1,2-Dihydronaphthalene oxide
ring contraction in the photochemistry of 1,2-dihydronaphthalene oxide, 127
Dimerization
para-aminobenzoic acid-photosensitized dimerization of thymine
in DNA-related model systems, 137
in pUC19 plasmid DNA, 147

Dioxane–acetonitrile mixtures
static and dynamic model for 1-naphthol fluorescence quenching by carbon tetrachloride in dioxane–acetonitrile mixtures, 115
1,6-Diphenyl-1,3,5-hexatriene
unusual absorption and fluorescence properties of 1,6-diphenyl-1,3,5-hexatriene in poly(vinyl alcohol) film, 161
DMABN
twisted internal charge transfer (TICT) effect in bis(4-cyanophenyl)piperazine, a pseudo-dimer of dimethylaminobenzonitrile: a comparative study, 13
DNA
para-aminobenzoic acid-photosensitized dimerization of thymine
in DNA-related model systems, 137

Ethanol
surface properties of Pt–CdS and mechanism of photocatalytic dehydrogenation of aqueous alcohol, 85
Exciplex
exciplex formation between polycyclic aromatic compounds and Ag^+ ions, 39
styrene–amine exciplexes: substituent effects, 237
Excited state properties
excited state properties of 2-acrylated anthraquinones, 109

Fluorescence
effect of humidity on the fluorescence properties of a medium-sensitive fluorophore in a hydrophilic polymer film, 169
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
unusual absorption and fluorescence properties of 1,6-diphenyl-1,3,5-hexatriene in poly(vinyl alcohol) film, 161
Fluorescence quenching
fluorescence quenching by acrylamide in micellar solutions, 175
Fluorescence spectra
photophysical properties of five laser dyes (C120, C1, C102, C1F and C153) in homogeneous, surfactant and membrane media, 269
Fluorophore
effect of humidity on the fluorescence properties of a medium-sensitive fluorophore in a hydrophilic polymer film, 169

Humidity
effect of humidity on the fluorescence properties of a medium-sensitive fluorophore in a hydrophilic polymer film, 169
Hydrated electrons
photochemistry of iodocuprate(I) complexes: formation and scavenging of hydrated electrons, 33
Hydrophilic polymer film
effect of humidity on the fluorescence properties of a medium-sensitive fluorophore in a hydrophilic polymer film, 169
Hydrophobic effect
quenching rate constants in aqueous solution: influence of the hydrophobic effect, 263
Hydrophobic porphyrin
novel Langmuir–Blodgett films, consisting of amphiphilic zinc phthalocyanine and hydrophobic porphyrin, 275

Industrial photochemistry
industrial photochemistry
the best use of photons in water purification, 191
Iodocuprate(I) complexes
photochemistry of iodocuprate(I) complexes: formation and scavenging of hydrated electrons, 33
IR multiphoton dissociation
pressure effects on IR multiphoton dissociation of CDF_3, 9
IR-photodecomposition
on the SF_6-sensitized IR photodecomposition of $Fe(CO)_5$: 5 μm transient absorption measurements and absorption energy measurements, 213
IR photolysis
product distributions in UV and IR laser chemistry of $C_nF_{2n+1}I$ ($n=1$, 2) in the presence of H_2, 1

Langmuir–Blodgett films
novel Langmuir–Blodgett films, consisting of amphiphilic zinc phthalocyanine and hydrophobic porphyrin, 275
Laser dyes
photophysical properties of five laser dyes (C120, C1, C102, C1F and C153) in homogeneous, surfactant and membrane media, 269
Laser excitation
photolysis of polycytidylic acid on 193 nm laser excitation, 155
Laser flash photolysis
new photodegradable polyamide containing *o*-nitrobenzyl chromophore. Steady state and laser flash photolysis studies, 181
novel photorearrangement of a bridgehead-disubstituted dibenzobarrelene. Steady state and laser flash photolysis studies of a 9-hydroxymethyl-10-methyl-dibenzobarrelene, 27
Light-induced interconversion
light-induced interconversion of 2,2,4-trialkyl-2*H*-thietes and acyclic α,β-unsaturated thiones, 103
Lipid vesicles
synthesis of ultrafine particles of transition metal sulphides in the cavities of lipid vesicles and the light-stimulated transmembrane electron transfer catalysed by these particles, 279

Monochlorobenzene
high-temperature thermal–photolytic oxidation of monochlorobenzene, 65

1-Naphtol fluorescence quenching
static and dynamic model for 1-naphthol fluorescence quenching by carbon tetrachloride in dioxane–acetonitrile mixtures, 115
o-Nitrobenzyl chromophore
new photodegradable polyamide containing *o*-nitrobenzyl chromophore. Steady state and laser flash photolysis studies, 181
o-Nitrodiarylamines
photocyclization of *o*-nitrodiarylamines, 133

Ozone
photoactivation of silver loaded on titanium(IV) oxide for room-temperature decomposition of ozone, 195

Para-aminobenzoic acid
para-aminobenzoic acid-photosensitized dimerization of thymine
in DNA-related model systems, 137
in pUC19 plasmid DNA, 147

Pentafluoroiodoethane
product distributions in UV and IR laser chemistry of $C_nF_{2n+1}I$ ($n=1$, 2) in the presence of H_2, 1
Photoactivation
photoactivation of silver loaded on titanium(IV) oxide for room-temperature decomposition of ozone, 195
Photocatalysis
semiconductor photocatalysis for life-support systems on the moon, 199
Photocatalytic degradation
jacketed annular membrane photocatalytic reactor for wastewater treatment: degradation of formic acid and atrazine, 291
Photocatalytic dehydrogenation
surface properties of Pt–CdS and mechanism of photocatalytic dehydrogenation of aqueous alcohol, 85
Photochemical loss
low temperature photochemistry of $(\eta^5\text{-}C_5H_5)M(CO)_3X$ ($M \equiv$ Mo, W; $X \equiv$ Cl, Br, I): structure and solvation of the CO loss products, 221
Photocyclization
comments about the use of Aberchrome™ 540 in chemical actinometry, 51
photocyclization of *o*-nitrodiarylamines, 133
Photodecomposition
radical intermediates in the photochemical decomposition of *p*-toluenesulphonate (a kinetic spin trapping study), 229
Photodegradation
new photodegradable polyamide containing *o*-nitrobenzyl chromophore. Steady state and laser flash photolysis studies, 181
Photoexcitation
high-temperature thermal–photolytic oxidation of monochlorobenzene, 65
Photogeneration
photomineralization of 4-chlorophenol sensitized by titanium dioxide: a study of the initial kinetics of carbon dioxide photogeneration, 75
Photoinduced electron transfer
photochemistry of acylazides
aroylazide decomposition by photoinduced electron transfer, 119
Photoisomerisation
vacuum UV photochemistry in cyclodextrin cavities. Solid state *Z–E* photoisomerization of a cyclooctene–*β*-cyclodextrin inclusion complex, 61
Photolysis
photolysis of polycytidylic acid on 193 nm laser excitation, 155
ring contraction in the photochemistry of 1,2-dihydronaphthalene oxide, 127
Photomineralisation
photomineralization of 4-chlorophenol sensitized by titanium dioxide: a study of the initial kinetics of carbon dioxide photogeneration, 75
photomineralisation of 4-chlorophenol sensitised by titanium dioxide: a study of the effect of annealing the photocatalyst at different temperatures, 285
Photons
industrial photochemistry
the best use of photons in water purification, 191
Photo-oxygenation
evidence of a charged intermediate in the dye-sensitized photo-oxygenation of substituted *α*-anilino-4,4′-dinitrostilbenes, 105
Photorearrangement
novel photorearrangement of a bridgehead-disubstituted dibenzobarrelene. Steady state and laser flash photolysis studies of a 9-hydroxymethyl-10-methyl-dibenzobarrelene, 27
Polyamide
new photodegradable polyamide containing *o*-nitrobenzyl chromophore. Steady state and laser flash photolysis studies, 181
Polycyclic aromatic compounds
exciplex formation between polycyclic aromatic compounds and Ag^+ ions, 39
Polycytidylic acid
photolysis of polycytidylic acid on 193 nm laser excitation, 155
Poly(vinyl alcohol) film
unusual absorption and fluorescence properties of 1,6-diphenyl-1,3,5-hexatriene in poly(vinyl alcohol) film, 161
Pressure effects
pressure effects on IR multiphoton dissociation of CDF_3, 9
pUC19 plasmid DNA
para-aminobenzoic acid-photosensitized dimerization of thymine
in pUC19 plasmid DNA, 147

Quenching
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
quenching of singlet molecular oxygen ($^1\Delta_gO_2$) in silica gel–solvent heterogeneous system
a direct time-resolved study, 55
quenching rate constants in aqueous solution: influence of the hydrophobic effect, 263

Radical intermediates
radical intermediates in the photochemical decomposition of *p*-toluenesulphonate (a kinetic spin trapping study), 229
Reaction rate constants
method for the determination of absorption coefficients, reaction rate constants and thermodynamic data in the system $A \underset{\Delta}{\overset{h\nu}{\rightleftharpoons}} B$, 205
Ring contraction
ring contraction in the photochemistry of 1,2-dihydronaphthalene oxide, 127

Semiconductor
semiconductor photocatalysis for life-support systems on the moon, 199
SF_6-sensitized
on the SF_6-sensitized IR photodecomposition of $Fe(CO)_5$: 5 μm transient absorption measurements and absorption energy measurements, 213
Silver
photoactivation of silver loaded on titanium(IV) oxide for room-temperature decomposition of ozone, 195

Silver ions
exciplex formation between polycyclic aromatic compounds and Ag^+ ions, 39
Singlet molecular oxygen
quenching of singlet molecular oxygen ($^1\Delta_gO_2$) in silica gel–solvent heterogeneous system
a direct time-resolved study, 55
Singlet oxygen lifetime
quenching of singlet molecular oxygen ($^1\Delta_gO_2$) in silica gel–solvent heterogeneous system
a direct time-resolved study, 55
Sodium dodecylsulphate (SDS)
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
Solvation
the low temperature photochemistry of $(\eta^5\text{-}C_5H_5)M(CO)_3X$ ($M \equiv$ Mo, W; $X \equiv$ Cl, Br, I): structure and solvation of the CO loss products, 221
Styrene–amine exciplexes
substituent effects, 237
Substituted α-anilino-4,4′-dinitrostilbenes
evidence of a charged intermediate in the dye-sensitized photo-oxygenation of substituted α-anilino-4,4′-dinitrostilbenes, 105
Synthesis
synthesis of ultrafine particles of transition metal sulphides in the cavities of lipid vesicles and the light-stimulated transmembrane electron transfer catalysed by these particles, 279

Thermal–photolytic oxidation
high-temperature thermal–photolytic oxidation of monochlorobenzene, 65
Thermodynamic data
method for the determination of absorption coefficients, reaction rate constants and thermodynamic data in the system $A \underset{\Delta}{\overset{h\nu}{\rightleftharpoons}} B$, 205
Thymine
para-aminobenzoic acid-photosensitized dimerization of thymine
in DNA-related model systems, 137
in pUC19 plasmid DNA, 147
TICT effects
twisted internal charge transfer (TICT) effect in bis(4-cyanophenyl)piperazine, a pseudo-dimer of dimethylaminobenzonitrile: a comparative study, 13
Titanium dioxide
photomineralization of 4-chlorophenol sensitized by titanium dioxide: a study of the initial kinetics of carbon dioxide photogeneration, 75
photomineralisation of 4-chlorophenol sensitised by titanium dioxide: a study of the effect of annealing the photocatalyst at different temperatures, 285
Titanium(IV) oxide
photoactivation of silver loaded on titanium(IV) oxide for room-temperature decomposition of ozone, 195
p-Toluenesulphonate
radical intermediates in the photochemical decomposition of *p*-toluenesulphonate (a kinetic spin trapping study), 229
Transition metal sulphides
synthesis of ultrafine particles of transition metal sulphides in the cavities of lipid vesicles and the light-stimulated transmembrane electron transfer catalysed by these particles, 279
Transmembrane electron transfer
synthesis of ultrafine particles of transition metal sulphides in the cavities of lipid vesicles and the light-stimulated transmembrane electron transfer catalysed by these particles, 279
2,2,4-Trialkyl-2*H*-thietes
light-induced interconversion of 2,2,4-trialkyl-2*H*-thietes and acyclic α,β-unsaturated thiones, 103
Trifluoroiodomethane
product distributions in UV and IR laser chemistry of $C_nF_{2n+1}I$ ($n = 1, 2$) in the presence of H_2, 1
Triplet energy transfer
intramolecular triplet–triplet energy transfer from xanthene dyes to an anthryl substituent, 45
Triton X-100
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257
Tweens
quenching of fluorescence of 2-anthracene sulphonate by cetylpyridinium chloride in micellar solutions of Tweens, Triton X-100, sodium dodecylsulphate (SDS) and cetyltrimethylammonium bromide (CTAB), 257

Ultrafine particles
synthesis of ultrafine particles of transition metal sulphides in the cavities of lipid vesicles and the light-stimulated transmembrane electron transfer catalysed by these particles, 279
UV photolysis
product distributions in UV and IR laser chemistry of $C_nF_{2n+1}I$ ($n = 1, 2$) in the presence of H_2, 1
UV photolytic degradation
UV photolytic degradation of butyltin chlorides in water, 97

Vacuum UV photochemistry
vacuum UV photochemistry in cyclodextrin cavities. Solid state *Z–E* photoisomerization of a cyclooctene–β-cyclodextrin inclusion complex, 61

Wastewater treatment
jacketed annular membrane photocatalytic reactor for wastewater treatment: degradation of formic acid and atrazine, 291
Water
UV photolytic degradation of butyltin chlorides in water, 97
Water purification
industrial photochemistry
the best use of photons in water purification, 191

Xanthene dyes
intramolecular triplet–triplet energy transfer from xanthene dyes to an anthryl substituent, 45
X-ray photoelectron spectroscopy
surface properties of Pt–CdS and mechanism of photocatalytic dehydrogenation of aqueous alcohol, 85
